RECYCLING SCULPTURE

TOOL KIT!

Cardboard boxes
Scrap paper
Plastic bottles
Plastic spoons
Scissors
Glue
Tape

LET'S RECYCLE!

- Using items ready for the bin, create a sculpture or 3d poster

UPCYCLE T-SHIRT BAG

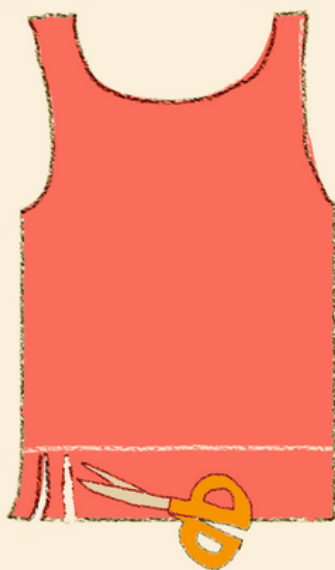

TOOL KIT!

T-shirt
Scissors
Chalk

LET'S REUSE!

- With the chalk, mark the top of the T-shirt as shown (with a scoop around the neck, and then around each sleeve) and trim with scissors.
- Cut off the hem at the bottom of the T-shirt. With the chalk, draw a straight line about 3-inches above the cut bottom. (Or, if you want a smaller bag, trim the T-shirt higher up.) With the scissors, 1-inch strips from the bottom of the tee up to the chalk line.
- Tie the front and back of each strip with a double knot.
- Turn the bag inside out to use.

The United Nations Conference on Trade and Development (UNCTD) considers fashion to be the second most polluting industry in the world, after oil.

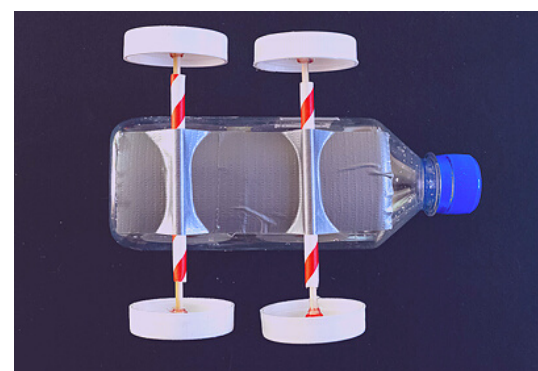

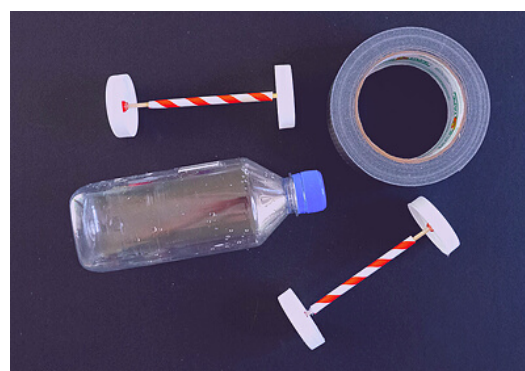

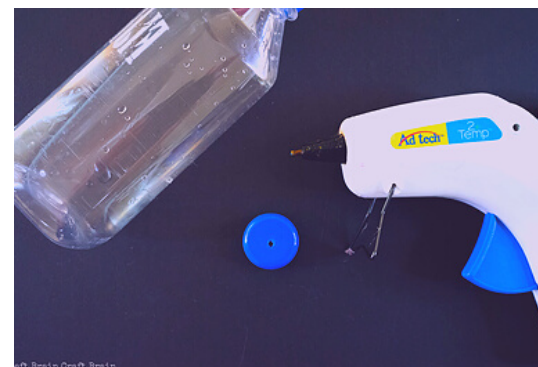

CHEMICAL REACTION CAR

LAB KIT!

Water bottle (square one is best)
1 straw
1 bamboo skewer
Scissors
4 plastic caps
4 pony beads
Glue gun or other glue
Duct tape
Vinegar
Baking soda
Tissue paper

LET'S EXPERIMENT!

- Preheat the glue gun. Caution! Glue guns are hot and adult supervision is required! You can use other glue if desired.
- Gently insert the hot tip of glue gun into the center of the water bottle lid, melting a hole in it.
- Cut the paper straw in half.
- Cut the bamboo skewer with scissors into two pieces, 1 inch longer than the straw pieces.
- For each wheel, glue a pony bead into the center of the inside of the wheel.
- Put some glue into the middle of the pony bead and insert one end of the bamboo skewer.
- Insert the bamboo skewer into the paper straw and glue the other end of the bamboo skewer into another wheel.
- Repeat steps 6 and 7 with the second axle.
- Duct tape the two paper straws to the bottle like axles.

LET'S RACE!

Twist open the water bottle and pour 1 cup vinegar into the water bottle. Cut a 5"x4" rectangle of tissue paper and pour in 1 tablespoon of baking soda. Roll up and fold the ends so the baking soda doesn't fall out.

1. Now head outside!
2. Place bottle upright and QUICKLY! insert baking soda package into the bottle and close the cap.
3. Shake the bottle and place car wheels on the ground.
4. Let it ride!
5. Watch the [video](#) for troubleshooting tips and tricks!

pizza

PINWHEELS

INGREDIENTS!

Puff pastry
3 tbs tomato paste
1 cup grated cheddar cheese
150g ham, chopped

LET'S COOK!

1. Cut pastry in half spread with tomato paste. Sprinkle with ham and cheese.
2. Turn the dough so the long end is in front of you and roll up. Slice into 10-12 pieces and place side-by-side on the tray.
3. Bake for 25 minutes or until a skewer inserted into a 'join' comes out clean.
