

Music for Kindergarten

Hi

Hope you are all doing well at home. I have attached the procedure for making homemade maracas. You can have fun and decorate them any way you like. If you have the supplies you can make more than one.

Once you have made your maraca you may like to visit the youtube sites listed below and use your maraca as your instrument. These are songs we have done in class. Try and convince your mum or dad or nan to join in. Please check with your parent before going onto youtube.

<https://www.youtube.com/watch?v=ISosXRj1JZA> Play on your instruments Kindy Rock

https://www.youtube.com/watch?v=y6fhn4PZ_yM Play it right by Kindy Rock

<https://www.youtube.com/watch?v=tFdiCupu1no> Shake, shake, rattle and roll - we haven't tried this one.

Any questions and your teachers will let me know through your Seesaw.

See you soon

Mrs Burgess

Maracas

You can use old toilet roll holders or the roll from paper hand towel or glad wrap or foil. They may be a little long but you could cut these in half and make two.

What you need:

Old toilet roll holder

Coloured paper

Glue stick

Pencil or texta

Dry pasta, rice or beans.

What to do:

1. Set the toilet paper roll on the coloured paper.
2. Carefully use a pencil to draw the dimensions of the roll on paper. It's okay if the paper is longer than the roll—you'll just glue over it.
3. Cut out the coloured paper along your pencilled lines.
4. Glue the coloured paper on the toilet paper roll.
5. Draw and cut out fun shapes, designs, and fringes from other sheets of coloured paper.
6. Glue the decorative pieces on the roll.
7. Make "caps" for the homemade maraca out of the coloured paper. The caps should be slightly larger than the paper roll openings.
8. Put a small amount of glue around one end of the paper roll.
9. Place one cap gently over the glued end.
10. Add beans, pasta or rice into the paper roll.
11. Glue the cap on the other end. Wait for your maraca to dry.
12. Give your maraca shake! How does it sound?
