

King Street Public School – S3P/S3M Week 9

You will not need access to a digital device to complete the following activities but this is an option. You may need help from a parent/carer and use the resources from your teacher. These resources and support videos are also available on Google Classroom. Work can also be submitted on Google Classroom or you can upload a photo/scan of your work. **Please check in daily on Google Classroom if you can!**

There are lots of resources available online. Amazing live streams can be found on the ‘NSW Department of Education’ facebook page.

Our Stage 3 classes are also offering occasional ZOOM sessions for students learning from home online through Google Classroom.
