Education

School Excellence Vision Statement

King Street Public School is committed to creating a positive learning culture that provides students with a well rounded educational program that continually focuses on individual strengths, high expectations and impact on learning. Every student is encouraged to give their best always in a challenging learning environment so that students can thrive and flourish in everyday society.

From the Principal

King Street Public School is located at the south end of the town directly across the road from Singleton High School.

We have faithfully provided outstanding service to families of the Singleton area since 1964.

Our school is a driver in developing positive wellbeing of every person, student, parents and staff members. Positive well-being is at the centre of our

programs which are designed to grow well-balanced individuals.

We believe in a positive and challenging learning environment where students can explore their creativity and innovation. At King Street Public School, students benefit from striving for high standards and achieving their best through our core values of being Kind, Safe, Proud and Supportive.

Students can be involved in a wide range of quality academic

and extra-curricular programs that cater for all students from Kindergarten to Year 6.

Our school has a consistent mix of highly experienced and beginning teachers that are enthusiastic, caring and have a love of teaching.

I look forward to meeting you in the near future.

Jonathan Russell

Principal of King Street Public School

Professional, Caring Teachers

Preparing our students for a successful future is extremely important to our teachers. We provide learning and opportunities that cater for a range of talents and strengths. Developing each child's emotional intelligence, resilience and leadership capacity is paramount at King Street Public School. We take pride in delivering excellent educational opportunities in a caring environment. Our teachers are highly trained and are committed to helping all students reach their full potential. King Street Public School has an innovative school community where staff, students and our learning community are continuously evaluating approaches to learning to ensure that our programs are cutting edge and addressing the needs of today's learners. Across all the teaching programs there is a strong commitment to multicultural, indigenous and environmental perspectives. The commitment to the individual needs of students from diverse backgrounds is reflected in our Learning Support Team processes. This guides our school community towards

effective action to address student needs and better foster understanding of different cultural customs and values.

Strong Foundation in Literacy and Numeracy

Learning experiences in Literacy and Numeracy have dedicated sessions within each school day. These sessions incorporate skills which promote learning across the whole curriculum. Teaching and support staff are involved in regular professional learning which keeps them informed of current research and practice.

King Street Public School aims to improve student's literacy and numeracy skills through a targeted approach. This focuses on:

- Identification of level of attainment in literacy and numeracy of each individual child.
- Differentiating teaching practice with a focus on individual learning needs.
- Using targeted interventions in literacy and/or numeracy according to need.
- On-going monitoring of student progress against the National Literacy and Numeracy Progressions.

- Regular monitoring and feedback of student learning to ensure that no child is left behind.

King Street Public School teaching staff support students learning through a wide range of strategies to read, write and speak using a variety of quality literature. During literacy sessions students are given activities to support their individual learning needs and foster self-directed learning.

Our current focus in Numeracy reflects the latest research in skill development. Number Talks and Talk Moves promote a deeper, more flexible understanding of mathematical concepts as well as developing mathematical reasoning, problems solving and communication skills.

King Street Public School also has a strong focus on the development of communication and public speaking skills. Opportunities to speak and debate in public are organised within classrooms and across our local community of schools and our region. Our school is actively involved in the inter-school debating competition, public speaking competition, Upper Hunter Eisteddfod and

the Premier's Spelling Challenge. King Street Public School offers participation in University of NSW competitions, Chess competitions and innovative classroom programs. Our students enjoy celebrating Education Week and Book Week, and this helps to motivate their learning through fun activities.

Our students take part enthusiastically in a variety of educational excursions which supplement teaching and learning units and provide opportunities to further students' skills and experiences in the community.

Science/Technology Preparing Children for the Future

King Street Public School offers children the environment needed to optimise learning and to promote the acquisition of knowledge and skills, including skills in critical and creative thinking, collaboration and communication.

Science at King Street has a large focus on the four key areas of the scientific world: the Living World, the Material World, the

Physical World and Earth and Space. Science lessons are carried out through investigations, discussions and hands-on experiences that encourage students to acquire the knowledge and skills that they will need to succeed in the future.

Science has a secondary focus on the innovative integration of new technology and an emphasis on creation and construction; for example, film making, photography, robotics and coding that enhances and extends classroom learning. Students also complete various problem-solving activities which require persistence, creativity and collaboration with peers.

Technology is a vital component incorporated into the curriculum which prepares our students for future schooling and employment.

Technology at King Street supports student learning through critical thinking, problem solving and decision making. Each classroom is equipped with an interactive smartboard, and we have three areas in the school with video conferencing facilities. This gives students the

ability to connect to people and experiences locally, nationally and globally.

We have a computer lab for whole class use. In addition to this we have a class set of computers in our library, banks of laptops between each class and classroom sets of iPads. Technology use is commonplace in our classrooms. Our technology program operates across the school and in all subject areas, not only in science lessons. Children are exposed to many facets of multimedia production in our classrooms including the access to a green screen for educational use and the promotion of our school.

The use of technology in our school aids in the adaptation of the curriculum to suit the needs, capabilities and interests of the individual student.

STEM lessons also provide students with an engaging curriculum in Science, Technology, Engineering and Mathematics.

Science and Technology is an integral part of King Street Public School in preparing our children for the future.

Supporting our Students

King Street Public School has a diligent Learning Support Team which meets on a regular basis. Our dedicated team meet to identify and provide support for students and teachers.

To meet these needs we offer a range of programs including:

- Intervention/Extension groups
- Integration support
- Gifted and Talented programs
- Mentoring
- Home reading
- Peer tutoring
- High school and Pre-school transition programs
- Aboriginal Education, through cultural aspects of dance and art, as well as literacy and numeracy support
- School Counsellor assessments, counselling and support
- ATSI transition to High School programs with the Clontarf Academy and NASCA (National Aboriginal Sporting Chance Academy)
- Seasons for Growth Program – grief, change and loss

program for students Year 1–6

- BRAVE program – anxiety program designed for students and parents.
- Social skills programs

Encouragement to Achieve

King Street Public School offers many extra-curricular activities to cater for Gifted and Talented children. Children have the opportunity to participate in Creative and Practical Arts groups such as Concert Band and Art Club. The children's artwork has been submitted into local art and agricultural shows and the musical groups frequently perform in our community.

The school also offers opportunities for children to attend Science shows, Debating and Public Speaking competitions as well as local workshops to extend interest in all areas of the curriculum. Exposure to such programs will aid those students wishing to pursue their GATS experience through Singleton High School's Enrichment Program.

Aboriginal Education

Our aim is to connect our school community and ATSI students with a rich, deep understanding of the heritage of local and wider Aboriginal culture.

Our school:

- Employs a full time Aboriginal Education Officer (AEO) to support classroom teachers and to liaise with all students and families promoting inclusiveness in Aboriginal Education throughout the school. The AEO works with local Elders to promote local indigenous knowledge and cultural awareness throughout the school community.
- Provides ATSI students with learning opportunities to 'bridge the academic gap' by identifying the needs of individual students through personalised learning plans developed in consultation with their classroom teacher, parents and AEO.
- Provides students with opportunities to develop a knowledge of Aboriginal culture through visits to Aboriginal centres or areas with lessons and activities

developed by teachers in consultation with the AECG for all classes during NAIDOC week. All teachers work in implementing a new English syllabus which incorporates Aboriginal perspectives in all units and across all KLAs.

- All students take ownership and have access to the school's Yarning Place and Bush Tucker Garden to enhance their cultural knowledge.
- Creates stronger working relationship with the AECG through regular attendance at meetings and the building of a collaborative culture through regular consultation with AECG executive.
- Creates links with Singleton High School (SHS) and feeder primary schools to improve transition of ATSI students by providing opportunities to familiarise themselves with SHS (Personalised Learning Support Plan BBQs, NAIDOC activities, professional dialogue, Aboriginal Dance Project, NAIDOC Week Art Projects).

Effective Student Wellbeing programs

At King Street Public School, we pride ourselves on delivering a strong co-curricular approach to developing the 'whole-student' which encompasses both academics and wellbeing development. King Street Public School's Visible Wellbeing and Social Skills programmes aim to create quality learning opportunities for children and young people. King Street Public School considers the context of children's and young people's lives and uses both objective and subjective measures in delivering wellbeing programmes and fostering individual strengths and growth.

"Schools have a pivotal role to play in connecting character development in children and young people to individual and collective wellbeing, which in the longer term will shape the values and attitudes of the society in which they live."

NSW DOE (2015), *The Wellbeing Framework for Schools*.

To embed these values and skills in our students we ensure:

- Student learning takes place in an environment which fosters and develops choice, accomplishment, positive relationships, enjoyment, growth, health and safety.
- Staff nurture professional relationships with students which are safe, respectful and supportive, and which help students to reach their full potential.
- Consistent and fair expectations of behaviour that are aligned with the Department's *Behaviour Code for Students*.
- Effective use of positive reinforcement with students striving towards and achieving meaningful goals.
- Students experience a sense of belonging and connectedness that respects diversity and identity.
- Parents and the broader school community actively participate in the school and in helping students to develop positive connections.

Visible Wellbeing

King Street Public School has partnered with the University of Melbourne and is part of a cluster of schools from the Upper Hunter that are engaging in this innovative and ground-breaking approach to developing student wellbeing. King Street are recognised as leaders in the Singleton and greater Upper Hunter area for successfully developing Visible Wellbeing at our school. Visible Wellbeing has now reached more than 100 schools across the world in North America, Asia, Australia, the Middle East and New Zealand. It follows the SEARCH framework – **S**trengths, **E**motional Management, **A**ttention & Awareness, **R**elationships, **C**oping and **H**abits.

“Designed by Dr Lea Waters (PhD), research professor and world expert in positive psychology, Visible Wellbeing™ (VWB) at the University of Melbourne combines the science of wellbeing with the science of learning and teaching to make wellbeing visible in all classes and across co-curricular. The VWB techniques help teachers to use the learning process itself as a delivery

mechanism to build student wellbeing. VWB is not a set curriculum, it is a flexible approach which can be applied across any subject matter, and in all contexts – early learning, primary, secondary, and in the staff room. With the VWB approach, academic learning and wellbeing are truly integrated.

VWB aims to help everyone thrive at school and the training and techniques are equally relevant to staff, teaching and non-teaching, as they are to students as a way to build a culture of wellbeing across the entire school.

The program also comes with a facilitated parent evening, helping the VWB techniques to have a positive impact at home as well as school.” (visiblewellbeing.org)

King Street Public School has been recognised for its outstanding wellbeing initiatives and was accepted as an institutional member into the Positive Education Schools Association.

Positive Behaviour for Learning (PBL)

Positive Behaviour for Learning (PBL) is an evidence-based whole school process to improve learning outcomes for all students. Teachers deliver meaningful lessons where strategies for social success are taught to all students at King Street Public School. Using the acronym **KSPS**, we ask all our children to be **K**ind, **S**afe, **P**roud and **S**upportive. PBL is team driven, using a problem-solving approach (data, systems and practices) that engages students, parents and all school staff. It addresses the diverse academic and social needs of every student to support them to be successful and enable our school to establish a continuum of supports that are intensified to meet the needs of every student at KSPS.

Our PBL Mascot, ‘Tawny’ the Tawny Frogmouth, is named after these beautiful animals, many of whom call our school home.

Rock and Water

The Rock and Water Program aims to awaken an individual's awareness of their own strength and opportunities and the ability to play, work and live together with other people in their current environment and in a rapidly changing and complex society. The lessons are linked together by the central themes of Rock and Water:

- Learning to stand strong
- Learning to be resilient
- Learning to be respectful to others

The program is strongly physical in nature and supported by brief discussion sessions which offer space for self-reflection and for short assignments.

What does Rock and Water Teach?

- Practical anti-bullying strategies
- Self-confidence, self-awareness and self-control
- Communication skills and interpretation of body language cues
- Alternatives to aggressive verbal and physical responses

- Thinking and being in control through grounding, centring and mental focus
- Boundary awareness
- Mindfulness strategies

Recognising Student Achievement

At King Street Public School, we believe that recognition of student achievement plays a vital role in the development of an effective learning environment.

As a whole school, student achievement is recognised through the presentation of KSPS Badges.

These are awarded to students who consistently uphold the KSPS core values of Kind, Safe, Proud and Supportive and successfully complete their 'Stage Contract'. KSPS badges are presented at our whole school PBL Assembly.

Active and Healthy Students

The Personal Development, Health and Physical Education (PDHPE) curriculum provides structured opportunities for all students to engage in health promoting activities including regular physical exercise.

King Street Public School values the importance of health and physical activity for its students and employs a fulltime secondary PD/H/PE teacher to provide a quality program for all students in Kindergarten to Year 6.

Our school boasts excellent sporting facilities including a large oval, basketball, tennis and netball courts, play equipment, a multi-purpose undercover area, a large hall and large open outdoor spaces surrounded by shaded trees. There are a range of competitive and non-competitive sports available to students with an emphasis on participation and enjoyment. Students are designated sports' houses which promotes healthy competition, a sense of belonging and team building skills. These houses are particularly celebrated during our

annual swimming, cross country and athletics carnivals.

King Street Public School appreciates that organised sport and physical activity fulfils many positive roles in the lives of children. It has the potential to foster and develop:

- Children's enjoyment in physical activity
- The learning of new skills
- A sense of personal achievement
- An ability to control emotions through involvement in competition and a variety of experiences.
- Social and interpersonal skills
- An understanding of a balanced lifestyle and the role of health and physical fitness
- A sense of self-worth and a strong and balanced self esteem
- An understanding of the components of health including mental health and wellbeing

King Street Public School has a number of programs on offer to

support the growth of our students. For infant students we offer a learn-to-swim program, weekly sport, skill development sessions in specific sports and an annual athletics carnival. Our primary students have the opportunity to participate in a 6 week swimming program, external community sports as part of their school sport program, a number of local sport gala days and the NSW Primary School Sports Association (P.S.S.A) sports competitions.

Our school is consistently applauded for its sportsmanship, participation and achievement in sporting endeavours.

Strong Arts Focus

Students at King Street Public School are encouraged to develop skills in self-expression and creativity through our Creative and Performing Arts programs.

Every student at KSPS is explicitly taught music every week and is taught the fundamentals of percussion, piano, ukulele and note value. King Street Public School has a full completed keyboard lab for

students to learn piano and create their own compositions.

Our talented school band is renowned across the community performing regularly at school functions and community events. Private tutoring in band instruments is available and members regularly join the Singleton High School Band and Singleton Town Bands for workshops and performances. Our school highly values its association with Singleton High School as we see them as an inspiration for our children in their creative pursuits.

Our school band coordinator also offers his services in instructing a Ukulele group on a fortnightly basis. This is offered to Year 2 and Year 3 students.

The school choir consists of a dedicated group of students who perform at school and community events.

Art club provides an alternative to playground activities daily.

Our Year 6 students enjoy the annual Star Struck experience in the area of dance.

Innovative Leadership Initiatives

A major initiative at King Street Public School is its Leadership Program. We believe that effective leadership at all levels; students, staff and the school community give our students the models and opportunities they need to be an effective member of society.

Our active Student Parliament gives students from all grade's leadership opportunities and responsibilities in crucial elements of school life. Leadership opportunities are also offered in the form of Sport House Captains.

At our school, Year 6 students are offered a unique opportunity in the form of our 009 Program. This is a leadership program that begins with 3 days of intense training resulting in senior students being given responsibility for organising games and activities for other students in our school at recess time. Each leader is rostered on once a week, with a partner. To be offered this role, each student must undertake a successful application and interview, followed by a whole day of training. Here they learn strategies to deal with possible

issues in the playground. This program is extremely successful at our school, and one enjoyed by all children.

Award-Winning Environmental Focus

King Street Public School has a proud environmental heritage. Our EWOKS (Environmental Workers of King Street) tend to our vegetable garden, chickens and generally assist in the beautification of our school. EWOKS is a regular activity offered during break time. As well as tending to the gardens, students are encouraged to sample edible dishes created using garden ingredients.

We have many areas throughout our school we are able to use as 'outdoor learning spaces' which can be an effective alternative to lessons in our classrooms. We regularly enter produce in the Singleton Show and have participated in local Garden Competitions with much success.

In 2015 we were honoured to consecrate our new Remembrance Memorial which takes pride of place at the front of our school. This Memorial is a significant reminder of the strong relationship Singleton has with

the Australian Army and a place where we can reflect and remember those who have served, and are serving, our country.

At King Street Public School, we continue to strive and find new ways to enhance the school environment.

A Dynamic School Community

We are a welcoming and friendly school which enjoys a cooperative partnership with parents and the local community. Our school is fortunate to have an active parent body that works tirelessly to enhance our students' learning experience and environment. At all times we encourage you as parents or carers to be active participants in school activities, and we value your input into your child's education and all aspects of school life.

The school has a proactive Parent and Citizens' Association which has a fine tradition of representing the needs of our parent body, fund raising and promoting our school. They support the Principal in achieving goals. Through extraordinary fundraising

initiatives the P&C is able to purchase extra classroom resources and equipment to benefit your child's school experience. Recently the P&C has contributed substantially to our technology project allowing our school to purchase new iPads and interactive smartboards as well as assist in technology maintenance. The P&C also fund the Year 6 Interrelate Program each year and generously provide all Kindergarten students with a hat on their first day of school. They host events such as Cracker Night which has become a much anticipated event enjoyed by the whole Singleton community. Our P&C are always happy to welcome new members.

The P&C meets on the first Monday of the month. For more information about meeting times and contact numbers, please contact our front office on 65722281. There are also regular opportunities for parents to meet teachers to discuss student progress and to enhance home learning to further support the educational goals of their children.

The Parents as Teachers/Community Helpers (PaTCH) course is a training program to accredit volunteers

supporting children to read, write and use counting in the early years of schooling. We conducted this course at King Street Public School for the first time in 2018. We have successfully trained two groups of enthusiastic and dedicated volunteers. In 2022, we intend to offer this course again. Further information will be available in Term 1.

An Active Student Parliament

The Student Parliament is a body within the school that represents students and promotes their views and participation in school decision making. It aims to promote leadership and communication skills allowing students to experience democratic processes and effective problem solving skills. Additionally, the Student Parliament creates a shared ownership of school functions and events and helps to raise funds to assist charities such as the Cancer Council through Biggest Morning Tea, Stewart House and other charities as decided by the Parliament body.

Students in Years 1 - 6 are elected by their peers to represent their class at

Parliament for a period of one semester. Children in Kindergarten are elected in Semester 2. The school Parliament meets regularly to discuss issues and make decisions regarding fund raising events. Our Parliamentarians also represent our 'Junior PBL Team' which gives further opportunity for our students' voices to be heard and have say in the decision making for their school. Involvement in the School Parliament is an invaluable opportunity and provides a unique learning experience for your child.

Happy Students at King Street Public School

King Street Public School (KSPS) is a school where all children are given the opportunity to try something new and where friendships are made.

All children are encouraged to be involved in our cross country, swimming and athletics carnivals. During my time at KSPS I have been given the opportunity to represent the school in cricket, soccer, rugby league, rugby union, touch football and cross country. We are also given the opportunity to participate in community sport.

If sport is not your thing you can join Art Club, EWOKS, debating, Star Struck, Lego Club, Beyblade Club, Chess Club or the school band. There is something for everyone and endless opportunities to make new friends. I have friends from Kindergarten and others I have collected along the way. Having staged based classes means you get to meet people from other years. I am looking forward to reconnecting with friends next year in high school.

As a school leader this year I have been given the opportunity to attend the Young Leaders Day, ANZAC Day, present awards and Tawny Badges to our students. It has been an honour to be able represent our school in this way.

Year 6 students are given the opportunity to be a buddy for our Kindergarten students. This has been a fun experience and I enjoyed getting to know my buddy and settling him into school life. We also get to go on interesting in/excursions. I have been to Oakvale Farm, The Australian Reptile Park, Baiame Caves, Healthy Harold, Canberra and Bathurst/Dubbo to name a few. It has been a privilege to be a student of KSPS for 7 years. KSPS is where opportunity is found and friendships are made.

Max Boston, School Leader 2023

Former Students Value King Street Public School

My name is Dana Holz, and I am a former student of King Street Public School and a current classroom teacher at KSPS. I started Kindergarten in 2005 at KSPS and in my time at the school I was elected class parliamentarian and represented the school at various sporting and creative events. I was elected as the Lawson house captain and received the Dux award for academic achievement in my final year in 2011.

I have always loved learning, and this is something that is fostered and celebrated at KSPS. My love of learning ultimately led to me completing an education degree and becoming a Primary School Teacher in 2022. The King Street Public School motto of 'Our Best Always' has always stuck with me and the school values of Kind, Safe, Proud and Supportive are values which I continue to uphold in my adult life. The values and skills I developed in my time at primary school have allowed me to become a person who values and cares for others and is determined to grow and improve in all areas of my life.

When I attended KSPS, the teachers were always supportive

and allowed me to realise how important it is to keep on trying, even when things are hard. King Street Public School is a supportive environment which allowed me to grow as a person and learner. As a student, I was able to learn alongside other amazing students, many of whom I have remained friends with into adulthood. I was also lucky to be taught by many amazing teachers who demonstrated kindness and passion in everything they did. I loved being a 'King Street Kid' growing up and I am now lucky enough to teach at this great school.

As a new staff member, I have always felt welcomed and supported by other staff at KSPS and I now have the privilege of teaching alongside the most amazing teachers, some of whom even taught me when I attended the school.

King Street Public School embraces all students and works alongside the community to ensure that students and staff members feel welcome, are able to achieve and grow, and leave school each day with a smile on their faces. I would absolutely recommend the school to future students.

Dana Holz, Classroom Teacher

Useful Information for Parents

Kind Safe Proud Supportive

Our King Street motto is **OUR BEST ALWAYS**. We will do our best to ensure that your child will be a happy, responsible member of our school community.

Starting School Successfully

Starting school is an important step in a child's life. At King Street Public School, we believe in the importance of strong home/school, teacher/parent partnerships from the very first day of your child's schooling. We encourage all parents to participate and be involved in all aspects of their child's education and to become part of the school community.

For this reason, we organise preschool visits and an eight week Kindergarten transition program. This program provides opportunities for children starting Kindergarten to settle into a school routine, meet their teachers, mix with groups of other children and engage in both structured and unstructured play activities.

Children are eligible to be enrolled in kindergarten when they reach the age of five years, or will turn 5 by 31st July during their initial school year.

Tips to help your child for their first school year

- Be positive about school and learning.
- Talk to your child about school.
- Use your local library.
- Read to your child and talk about what might happen next in the story.
- Share many different experiences.
- Support your child in your home language.
- Provide a variety of play materials such as water, sand, paper, pens, paint, scissors and glue.
- Encourage your child's curiosity by asking questions

and encouraging questions in return

- Label items, eg the door, the cupboard, the refrigerator etc.

What does your child need to bring to school each day?

Books and pencils are provided for students in Kindergarten-Year 2. Each child will require their own art smock and library bag. A note will be sent home by the class teacher if anything special is required.

Year 3-6 children need to bring their own basic equipment to school each day including lead pencils, pens, rubber, ruler, coloured pencils, sharpener, textas and pencil case.

It is advisable to have your child's name on all items that they bring to school.

School Hours

9.10am	Start of school day
11.20am to 12 noon	Lunch
1.40pm to 2.10pm	Recess
3.10pm	End of school Day

Location

King Street Public School is located in the southern end of Singleton.

We are conveniently located opposite Singleton High School. During their time at King Street our students become very familiar with aspects of high school life. We regularly have High School students visit our school to perform or share information with our children. We are able when required to share facilities, resources and professional learning.

Having this positive partnership with Singleton High School helps to ease your child’s transition into Year 7.

Supervision

Children are supervised between 8.40am and 3.10pm. Parents or carers only are able to collect their own children during school hours.

Please notify the class teacher of any change in the collecting routine. Should you wish to take your child early from class you are required to obtain a Collection Slip from the office.

Late Arrivals

To ensure student safety, students arriving late are asked to report to the office with their parent to obtain a Late Slip. Parents are asked to supply the office with the reason the children are late. This is then recorded on the Late Slip that is given to the class teacher.

Arriving on time ensures a positive start to each day for your child.

Bus Travel

King Street Public School students are expected to maintain our high standards of conduct when in public travelling to or from school. Students should travel to and from school using common sense and observing the bus and school rules.

All infants children travel free and primary children who live more than 1.6km away from the school (a radius with the school as the centre) are eligible for free transport to and from school.

The buses leave King Street entrance between 3.10pm and 4pm each afternoon, and children are supervised by school staff until they board their buses.

All students must now have an Opal Card to travel on school buses. Applications for bus travel can be made at www.transportnsw.info/school-students.

Absences

If your child is absent from school please provide a reason for their absence. This can be lodged via our Parent Sentral App, phone message or a signed note.

If it is a prolonged absence, please let the school know as soon as possible.

School Uniform

King Street Public School has a strong across-the-board support for the wearing of the school uniform. We believe it encourages the students to feel part of the school community.

Boys Uniform

- KSPS jacket, royal blue school shorts/trackpants, KSPS polo shirt, white socks and black shoes.

Girls Uniform

- KSPS jacket, dress/skirt in school check material or royal blue school shorts/trackpants, KSPS polo shirt, white socks and black shoes

Sports Uniform

- Unisex – jacket, trackpant, royal blue shorts, sport house polo, white socks and joggers

School Hats

As part of our Sun Smart policy children are required to wear a hat. To keep your children safe hats must have a brim to protect face, ears and neck. Hats must be worn at all times whenever children are outside. Children without hats will remain in the designated shade areas. School hats are available for sale from the P&C Uniform Shop.

School Uniform Shop

To assist with keeping children attired in the correct school uniform, the P&C operates a Uniform Shop. The Uniform Shop has the red and blue doors and is located near the Sussex Street Staff car park.

The Uniform Shop operates on Monday afternoon 2.30-3.30pm and Thursday morning 8.30-9.30am.

All school uniform requirements are available at the School Uniform Shop except footwear. New and pre-loved items are available. A list of items and prices is available from the school office and on our website www.kingstreet-p.schools.nsw.edu.au.

Canteen

The canteen is operated by the P&C and raises money for our school. The canteen provides a wide range of nutritious lunches at a reasonable price. You will receive a list of canteen prices with your information package, and a price list is on our website.

The canteen is open for breakfast to be purchased each morning before school.

Children order lunch before the morning bell using paper bags available at the canteen or brought from home. The student's name, class and order should be written on the outside of the bag. The correct money should be placed inside the bag, which should then be dropped into the box on the counter at the canteen.

Alternatively, families are able to place canteen orders via the QuickCliq App. The cut off time for ordering is 9am and orders may be placed 28 days in advance. For more details visit www.quickcliq.com.au. Full details on how to register are also available on our school website.

Volunteering to work in the canteen is a great way to meet other parents, and the children enjoy seeing their parents/family members being involved in the school community.

Out of School Hours Care

In Term 4 2021, KSPS was excited to welcome CubbyOOSH to our school community. CubbyOOSH is an external provider, facilitating out of hours and vacation care in the grounds of our school.

For more details on CubbyOOSH services, access their website www.cubbyoosh.com.au or call 1300 553 583

School Communication

At King Street Public School we value and encourage communication between staff and parents. We have numerous tools we use to share information and success with our families:

School Bytes

School Bytes Parent Portal is used for communication, consent and online payments. The portal's features include:

- The ability to give electronic permission for school excursions/incursions.
- The ability to complete electronic student forms.
- Communication of school events and general information.
- The ability to process online payments for upcoming excursions/incursions and view statement of accounts.

Website

Our website contains a vast amount of information including a calendar of events, news items, enrolment information,

Canteen and Uniform Shop updates and a photo gallery where we love to showcase the opportunities our students are given.

You can access the King Street Public School website via the following: www.kingstreet-p.schools.nsw.gov.au

Facebook

With the majority of the population now on Facebook, our Facebook page allows users to not only access information but exposes a whole new audience to the programs and achievements associated with our school.

Like our Facebook page at www.facebook.com/kingstreetpssingleton.

School Reports and Assessing

School reports provide important feedback on the progress of your child and provide students and parents with feedback on how much students have achieved throughout the year. Reports are sent home twice a year. We encourage parents to discuss their child's report with their child, focusing on the positive aspects.

Interview with Staff

King Street Public School encourages regular contact between parents, teachers and students. Class meetings to inform parents of timetables, student requirements, organisation and teacher expectations are held early each year. Teacher/parent/student conferences are held once a year, and this is an opportunity for parents and teachers to meet formally and discuss student progress and set learning goals.

Parents may request an oral report at any time. Of course, there are times during the day when teachers are unable to talk with parents because they are teaching or have other school commitments. Therefore, it is advisable to phone the school and arrange a convenient time if an extended interview is required.

School Counsellor

King Street Public School has access to a school counsellor for 2 days per week. The School Counsellor is part of the Learning Support Team and is able to contribute information, understanding and advice on the

learning and behaviour of students.

Referrals to the School Counsellor are prioritised by the Learning Support Team which meets weekly.

Medication

If your child has any medical needs, please see our office staff who will be able to inform you of our procedures.

Accident and Illness

In the event of an accident or illness it is essential that you can be contacted. For this reason we have emergency/medical information that we ask you to complete. The school should be contacted immediately if any of these details change.

King Street Values Student Wellbeing

If your child has food allergies, we ask that you notify the office immediately. We do have children at our school that have severe allergies. To keep all of our children safe and well, we ask that parents do not send to school any foods that contain nuts (especially peanuts) or fish

products. This also extends to containers that may have contained these products (eg peanut butter jars).

The school canteen does not stock any foods that contain these substances. We ask that parents support us by educating your children not to share their food with others.

Valuables at School

At King Street Public School we appreciate at times your children may need to bring valuable items to school such as mobile phones. While we do not allow such items to be used in the classroom, we take every opportunity to assist your child in keeping these items safe. It is required that they hand them to the office staff when arriving at school, where they will be placed in a safe place. The items will then be available for collection at the end of the school day.

**OUR BEST
ALWAYS**

Enthusiastic Parents at King Street Public School

"I have been a proud parent of the King Street Public School community since 2016. The opportunities given to the students are generous – from music to sports, art to academics. There is room for everyone to flourish and be recognised for their own unique strengths.

There is no 'one size fits all' mindset.

"I love the presence of well-being and mindfulness as part of the schools learning values. A lot of effort goes into self-reflection and ensuring all students are aware of and appreciate their individual strengths.

The KSPS school community is incredible – so welcoming and supportive. Teaching staff are approachable and the additional support staff throughout the school are a fundamental asset in creating an inclusive learning environment. As parents, the 'open door policy' invites and encourages us to participate in our children's school life through the P&C, sports carnivals, parades and many assemblies which acknowledge our children's achievements, big or small, academic, sporting or social.

Both of my boys are growing into intelligent and confident, but most importantly happy, well – adjusted young people. I could not ask for more than what KSPS has to offer."

Kate Blyth, KSPS Parent

Kindergarten Transition

"As a first time Kindergarten parent, I found the transition program to be an amazing experience not just for my child, but also for myself and the rest of our family. It allowed my daughter to gain confidence in meeting new friends and preparing for the year ahead.

The transition program allows the children to get to know the teachers, where classrooms and toilets are and the school routine. This was so helpful in allowing my daughter to adjust to Kindergarten life and gave her a huge head start in breaking down the anxieties that starting big school can have on children.

The program itself was enjoyable for the children and we loved seeing and hearing of all the new things our daughter was learning each week. I highly recommend the KSPS transition program to ensure a smooth transition into school life".

Kate Barnett, KSPS Parent

Through the eyes of a Kindergarten Student

What is your favourite thing to learn about?

I love learning how to read.

What is the best thing to do at lunch and recess?

Playing hide and seek with my friends.

What do you like to do with your Year 6 buddy?

Making our easter hat.

What do you like about King Street Public School?

I like learning new things.

Alister Nichols, Kindergarten student

Kindergarten 2023

Kind Safe Proud Supportive

We welcome you and your child to King Street Public School. We hope the time you spend with us will be happy, productive and rewarding.

Starting Day 2023

In NSW, all children who have turned 5 (or will turn 5 by the 31st July during the school year) are eligible to enrol at their local school. If you are unsure as to whether your child should start school, particularly if their 5th birthday falls during the months leading up to the 31st July, please speak to your child's pre-school teacher.

Kindergarten children will commence school on **Friday 2nd February 2024**. All children are to meet in the hall with their bags at 9.30am. Entry to school will be via King Street. On the completion of a small address, your child's class and teacher will be announced.

School Terms 2024

Friday 12th April

Last Day of Term 1

Term 2

Monday 29th April

Term 2 commences.

Friday 5th July

Last Day of Term 2

Term 3

Monday 22nd July

Term 3 commences.

Friday 27th September

Last Day of Term 3

Term 4

Monday 14th October

Classes Begin

Friday 20th December

Last Day of Term 4

2024 additional Staff Development Days to be advised.

Arriving to and Departing from School

Teachers are required to be on duty from 8.40am.

Upon arrival at school, Kindergarten students place their bags in their class lines outside the Kindergarten rooms. They are then asked to make their way to the quad to join their friends. When the music sounds prior to the bell, this is the time for children to go to the toilet, have a drink and proceed to their class line in the quad.

At the end of the day Kindergarten children will be taken outside by their teacher to be dismissed. Those catching the bus line up and a teacher takes them down to the bus lines. The teacher stays with the children until the teachers on bus duty arrive. (Please note students must have an Opal Card to travel on school buses.

Apply at www.transportnsw.info/school-students). All other children in Kindergarten should be collected by a trusted adult or sibling. A teacher will remain with the children until they are collected. If there is a change in

the way your child is to go home, please notify your child's teacher.

Parents are also required to sign their children in and out with our office staff if they are coming late to school or leaving early.

Best Start

Best Start is a departmental initiative conducted in all public schools across NSW. King Street Public School has been a Best Start school since 2009. Best Start involves assessing Kindergarten students to determine what knowledge they bring with them to school. The results are used to implement programs, assessments and reviews of individual students.

Assessments will be conducted during the first week of the school year. Parents will receive a report regarding their child's results.

Hats

As part of our Sun Smart policy children are required to wear a hat. To keep your children safe hats must have a brim to protect face, ears and neck. Hats must be worn at all times whenever children are outside. Children

without hats have to remain in a designated undercover area. Our generous P&C provide all Kindergarten students with a hat on their first day of school. Staff will ensure hats are labelled with your child's name.

Labelling

Please label all of your child's belongings. This will ensure your child's items will be returned if misplaced, and also helps to minimise disputes over property.

The First Few Weeks

Be interested and positive!

The children will be tired having just begun school. They may be tearful in the second or third week. This is normal for the start of Kindergarten. Allow them time to unwind and to relax.

During the first few weeks, Kindergarten students are to be collected at **3.00pm**. This is to help children find their parents easily before the rest of the classes are dismissed.

In Term 1 until Week 6 there will be a Kindergarten teacher on duty at lunch and recess to ensure a feeling of security in their environment.

Name Tags

For the first two weeks at school each child will need to wear a name tag. The tag your child received at Transition can be used, however extra copies are always made. Please ensure the name tag is worn daily. For all teachers, being able to call children by their first name (including in the playground), helps to speed up the process of getting to know them.

What does your child need to bring to school?

Each child will require:

- An art smock or an adult T-shirt to protect their uniform during art activities
- A library bag
- A hat (P&C will provide one on the first day)
- A clearly labelled lunch box and water bottle

Weekly Events

In addition to the six key learning areas, your child will have the opportunity to participate in the following activities:

Library: The children will visit the library fortnightly to learn library routines and borrow a book.

Fitness: Daily fitness occurs first thing in the morning for 10 minutes.

Infants Assembly: Infants Assemblies are held regularly for Years K-2. You will be notified by your class teacher of the day, time and venue. Parents are most welcome to attend all assemblies.

Scripture: Visiting adults take a lesson once a fortnight. Please advise teachers in writing if you do not wish your child to attend these Scripture lessons.

Computer: Children will have regular skills-based computer sessions.

Music and Drama: Kindergarten students participate in a weekly music and drama lesson with a specialist teacher and their classroom teacher in our music lab.

Science and PDHPE: All students are involved in fortnightly lessons based around the Key Learning Areas of science and PDHPE. They participate in engaging hands-on activities while fostering a sense of both teamwork and independence.

Mentoring: Students will be allocated a Year 6 'Buddy'. They

will meet weekly to participate in a variety of activities. This program will begin during the Transition program and continue throughout 2022.

Your Role as Parents

At KSPS we believe a positive partnership between parents/carers and school staff is a crucial ingredient to ensuring your child's academic success. Children thrive when they have parents supportive of their learning. We welcome you to make an appointment to talk to your child's teacher at any time throughout the year.

Parents will be informed of timetables, student requirements, general organisation and teacher expectations early in Term 1.

Volunteers

There will be opportunities throughout your child's time at King Street where you will be invited to volunteer (for example Canteen or fundraising activities). For Health and Safety purposes, all volunteers are required to have a current Working With Children Check and present their certificate to the school. In addition, all volunteers and visitors need to sign in at the office.
